About Me

I graduated from Gazi University with a degree in Computer Science and Engineering. Throughout my academic journey, I have successfully completed various projects in web development, mobile app development, and game development. Proficient in the Object-Oriented Programming paradigm, I have demonstrated my skills in crafting applications using .Net, Java, and Flutter (Dart). You can explore the projects I've worked on by visiting my GitHub repository.

Work Experience

Flutter Developer Intern
Vakıf Global Bilişim ve Teknoloji
Jun 2022 to August 2022 (3 months)

I developed a mobile application using Flutter, designed to facilitate task assignment and monitoring in alignment with the System and Network team's annual maintenance and exercise plan requirements.

Software Engineer
TUALCOM Elektronik A.Ş
March 2023 to August 2023

- Developing mobile application with Flutter.
    1. Sending and receiving Broadcast UDP packages
    2. Dart:IO library
    3. Chat App

- Developing desktop application with Java (Eclipse RCP)
    1. SWT Widgets
    2. Bug-Fixing and Testing

- SVN
